## SKILLS

Python Power BI Ruby Tensorflow  
Deep LearningSciKit-LearnManaging  
SQL Pandas Numpy CNN  
Artificial IntelligenceMachine learning

Trouble solving Organizing  
Responsibility Ownership  
Eager to learn Social

## SUMMARY

Five years ago I started my transition into the data world by learning how to code. I have been working as a programmer for the last 5 years, so now it's time for the second step. That's why I decided to follow a bootcamp: 'Data Science and AI'. Apart from learning about Python, Power BI, Tensorflow, Scikit-Learn, Pandas, Ruby and other programs, I have experience with problem solving, managing and organising. I'm looking forward to being a valuable asset to a data team. I used to work abroad in an international environment, so I'm both looking to start in Flanders or back abroad. Don't hesitate to contact me for a chat!

## EXPERIENCE

### Full stack developer

Lichtvis

01/2019 - 09/2023

Bruges

- Data Collection** and **Data Analysis**: forecast for warehouse space, amount of staff etc
- Full Stack developer** Ruby): created my own web application from scratch Biblnform) used by 5 book stores and dozens of libraries in Flanders
- Warehouse **Manager**: responsible for the day-to-day work, planning, organising, purchasing, HR and led a team of up to 35 students and other staff in the warehouse

### Co-founder

Pamogi

06/2021 - 05/2022

Bruges

- Co-founder** and advisor for crypto, pre-sales, blockchain and the white paper for this startup until the pivot away from crypto

### Customer and Accommodation Service Executive

Booking.com

04/2012 - 12/2018

Tourcoing

- Answered questions and solved doubts of **new partners**, guided them through their application process, checked for incorrect information and fraud, explained and corrected the system settings as well as giving commercial advice
- Complaint handling** from hotels and customers and negotiating between guests and hotels
- Quality, **social contact**, tact, **trouble solving** skills and **analysis** are very important

### Risk Management Administrator

Dun & Bradstreet

10/2009 - 07/2011

Greenock / Dublin

- Creating and updating **business reports** for the Luxembourg market
- Gathering and processing correct data** by searching online, reading all the financial papers of companies, **analysing** them and putting them into records like balance sheets
- Specialised in holdings and offshore companies
- Founding member of Sport&Social club and Evolve (responsible for creating the best possible work environment)

### Customer Fulfillment Administrator

IBM

03/2006 - 06/2007

Madrid

- Direct point of contact of **IBM's** biggest customers in Benelux
- Problem solving** and **social contact** were very important
- Looking for **solutions** on the long term, for the bigger picture, which helped me **save one of their biggest customers**
- Independence, **ownership**, follow-up, planning and organisation were key in order to have all requests solved in a timely manner
- Coaching** team I started in on frequent mistakes
