Personal Profile

I am Amr Gebil, a software engineer specializing in backend development. I have extensive experience in this field using Python and frameworks such as Django and Odoo. Additionally, I have experience in the software project lifecycle, including web frontend development. My experience also covers a basic understanding of machine learning models and fundamental computer science concepts such as object-oriented programming (OOP), networking, computer organization and architecture, and database management.

Education

Zagazig University   *Zagazig , Egypt*
Bachelor's degree in computer science and software Engineering   *Sept 2019 - June 2023*
- **GPA:** 3.41
- **Courses:** computer architecture and organization , operating systems , Data structure and Algorithms , Object-oriented programming ,machine learning,deep learning,project management , Learning Skills through Case Studies,....

Projects

TechCare (Github link)   *Egypt*
Website and mobile application(API) :
- A comprehensive online project dedicated to improving patient care by offering a wide range of health services, including doctor and nurse finding, disease information, first aid guidance, and advanced skin disease prediction, all conveniently accessible through a single platform. .
- this is my graduation project.
- **Technical Skills:** Python language,Django framework,Django Rest framework,PotgreSql,HTML,CSS, JavaScript and Git.

Real Estate(Github link)   *Egypt*
Odoo Module :
- This Odoo module is used to manage properties and provides information about them, such as location, description, design, and more. .
- **Technical Skills:** Python language,Odoo , Rest Apis,PotgreSql and Git.

Work Experience

Nasser Al Sultan Holding Company   *Cairo, Egypt*
Mid level - Odoo Developer (Full Time)   *Sept 2024 - present*
- Design, Development research and testing of Odoo modules, projects, products and interfaces.
- Configuration, installation and maintenance of server.
- Design and develop Odoo apps (new module development, customization).
- **Technical Skills:**Backend Development,Python,odoo framework,linux, Problem Solving,PostgreSQL,Git,Deployment.

PetsEgypt   *Cairo, Egypt*
Junior - Odoo Developer (Freelancer)   *February 2024 - Present*
- Design, Development research and testing of Odoo modules, projects, products and interfaces.
- Configuration, installation and maintenance of server.
- Design and develop Odoo apps (new module development, customization).
- **Technical Skills:**Backend Development,Python,Django,odoo framework,linux, Problem Solving,PostgreSQL,Git.

Skills

Programming Language: (Proficient) Python. (Familiar) Java, C/C++, JavaScript.
Frameworks: Odoo, Django, Django Rest framework.
Front End: HTML, CSS, JavaScript.
Version control systems: Git, GitHub.
Miscellaneous: PostgreSQL, OOP, Data Structures and Algorithms.
Soft Skills: Time Management, Teamwork, Problem-solving, Documentation.

Languages

English   Professional proficiency
Arabic   Native proficiency
